Dear Ali Altaee

We hereby grant you permission to reproduce the material detailed below in print and electronic format at no charge subject to the following conditions:

RE: Iron slag/activated carbon-electrokinetic system with anolyte recycling for single and mixture heavy metals remediation, Science of The Total Environment, Volume 930, 2024, Hamdi et al.

Proposed use: To be used in the conference presentation

1. If any part of the material to be used (for example, figures) has appeared in our publication with credit or acknowledgment to another source, permission must also be sought from that source. If such permission is not obtained then that material may not be included in your publication/copies.

2. Suitable acknowledgment to the source must be made, either as a footnote or in a reference list at the end of your publication as follows:

"This article was published in Publication title, Vol number, Author(s), Title of article, Page Nos, Copyright Elsevier (or appropriate Society name) (Year)."

3. This permission is granted for non-exclusive world rights in all languages.

4. Reproduction of this material is granted for the purpose for which permission is hereby given, and includes use in any future editions of the work you have been granted permission to use this material in. The material may not be reproduced or used in any other way, including use in combination with an artificial intelligence tool (including to train an algorithm, test, process, analyse, generate output and/or develop any form of artificial intelligence tool), or to create any derivative work and/or service (including resulting from the use of artificial intelligence tools).

Kind regards,
