From a deep valley

Burton has a two-year history presenting Site Works, an intensive weekend event encompassing environmental research projects and artworks.

In 2022, with the opening of the new Art Museum, the program expands to a full season including the exhibition levels, undergrounds, a multi-levelled digital collaboration, outdoor installations, as well as four key weekends of talks, performances and our films.

Site Works: From a deep valley is a response to the concept of the 'deep' - from the physical to the metaphorical and emotional spaces, and to document internal and external landscapes. Through to gather diverse research, local artists, commissioners, and biological knowledge and technologies, it is a gathering of reports from artists and scientists that mark this place and time.

Site Works 2022 is supported by Sydney Festival and forms Burton's contribution to the World Weather Bureau, a compilation of weather spaces, inspired by Arnekeg, UK, and 27 arts agencies around the world.

JOIN US FOR SITEWORKS WEEKENDS
06-07 November 2022
04-05 January 2023
09-10 January 2023
23-25 February 2023

The full program can be found on our Site Works page available at the front desk. All project and participant details can be found on our website: burton.com.au/siteworks2022

Burton would like to thank all our supporters and partners for making Site Works 2022 possible.
